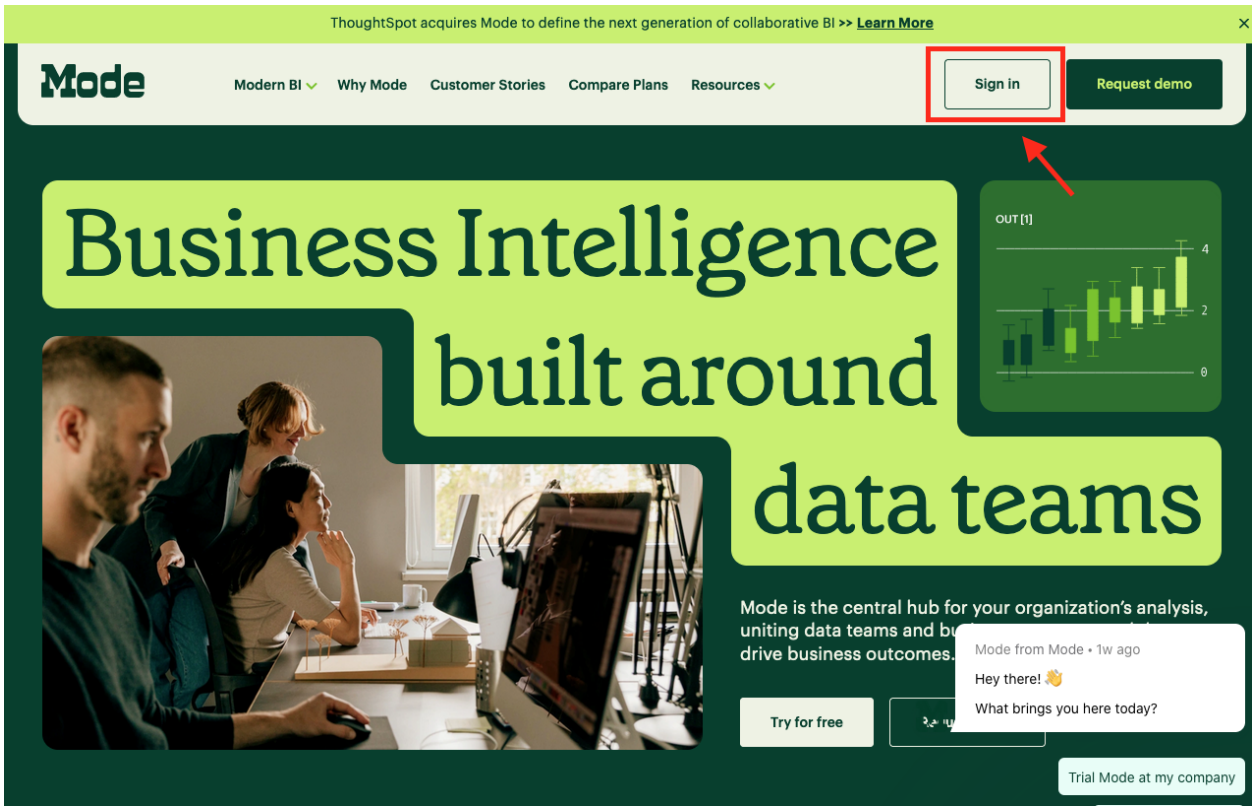
Connecting to Mode Analytics

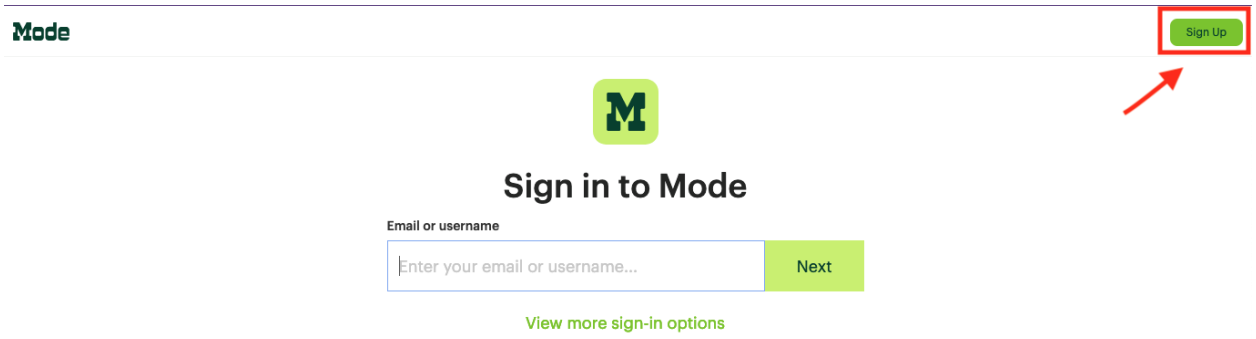
We'll be using Mode Analytics to do SQL for this class. Follow these steps to get connected and familiar with the tool.

1. Visit https://mode.com/ and create an account following the steps below:

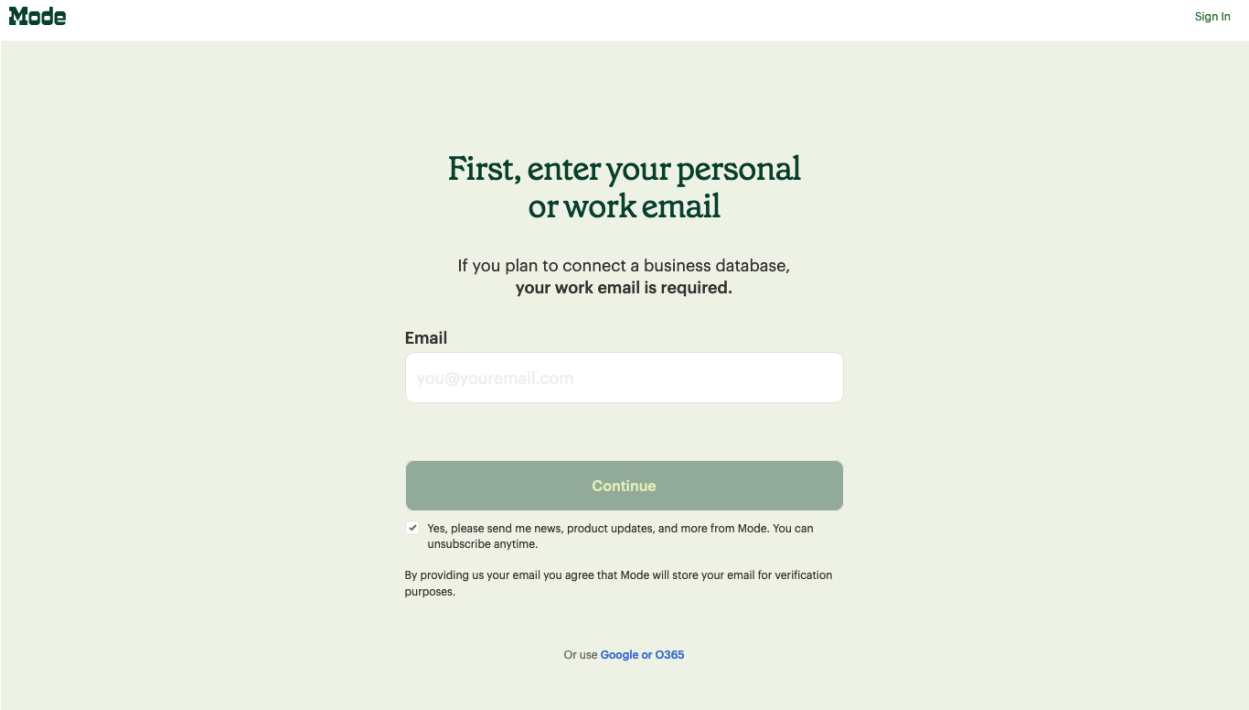
Click the "Sign In" button:



Click “Sign Up” in the upper right corner:

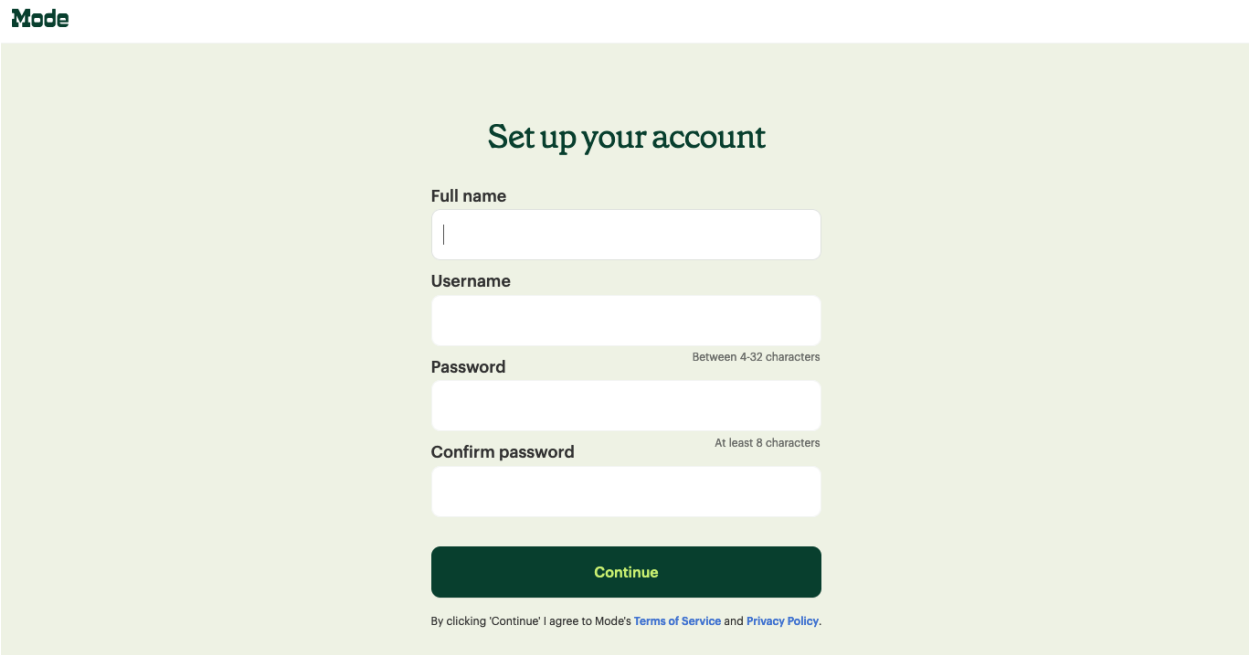


Enter an email address:

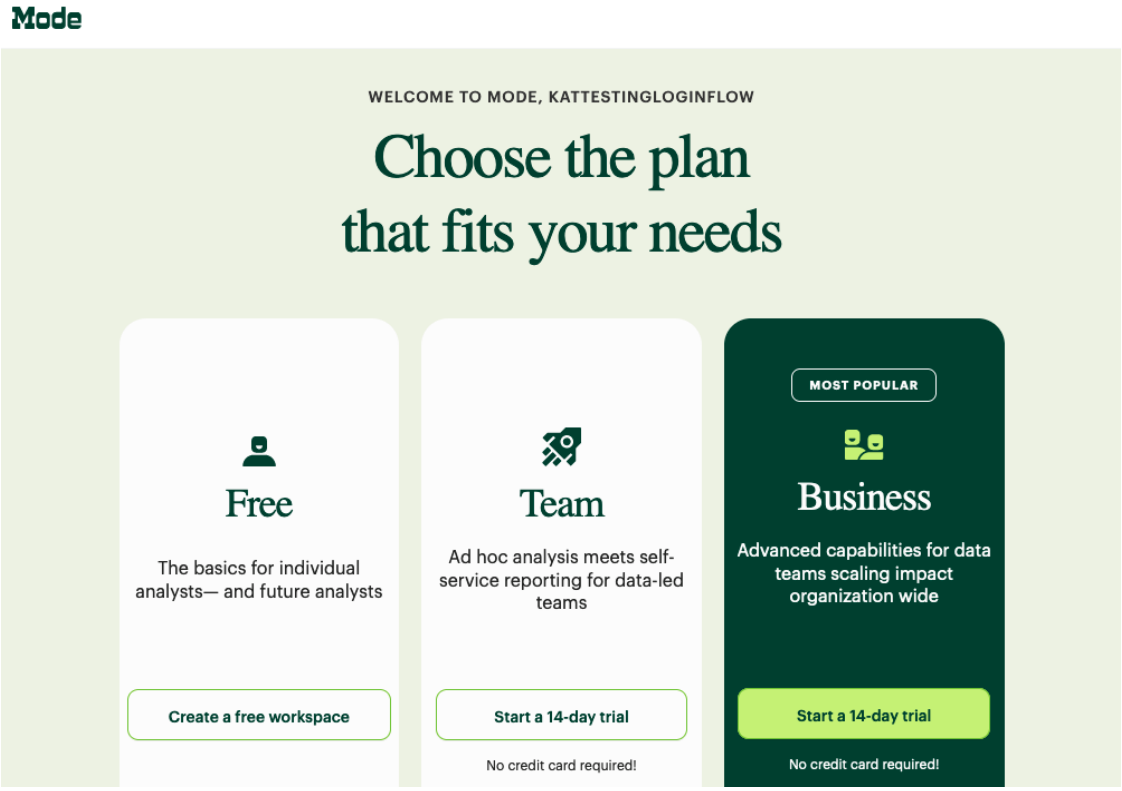


You should then receive an email to verify your email address.

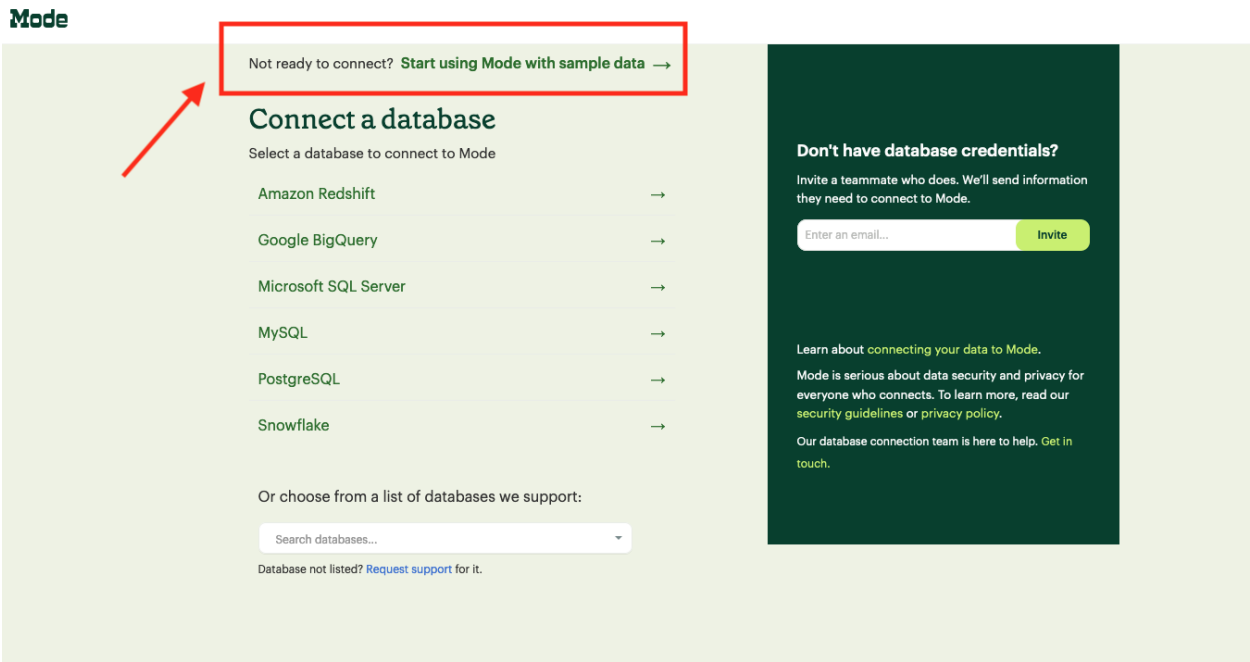
Create an account:



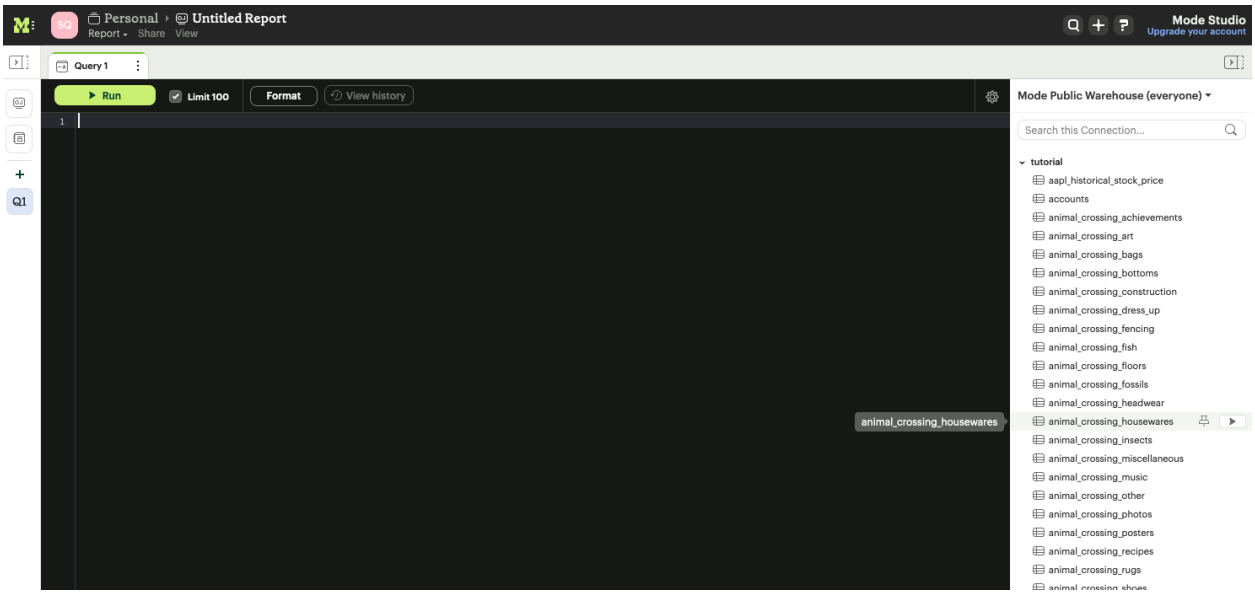
It's possible you'll come across this page. Select the free plan - "Create a Free Workspace":



Or, you could come across this page. Click on "Start Using Mode with Sample Data":

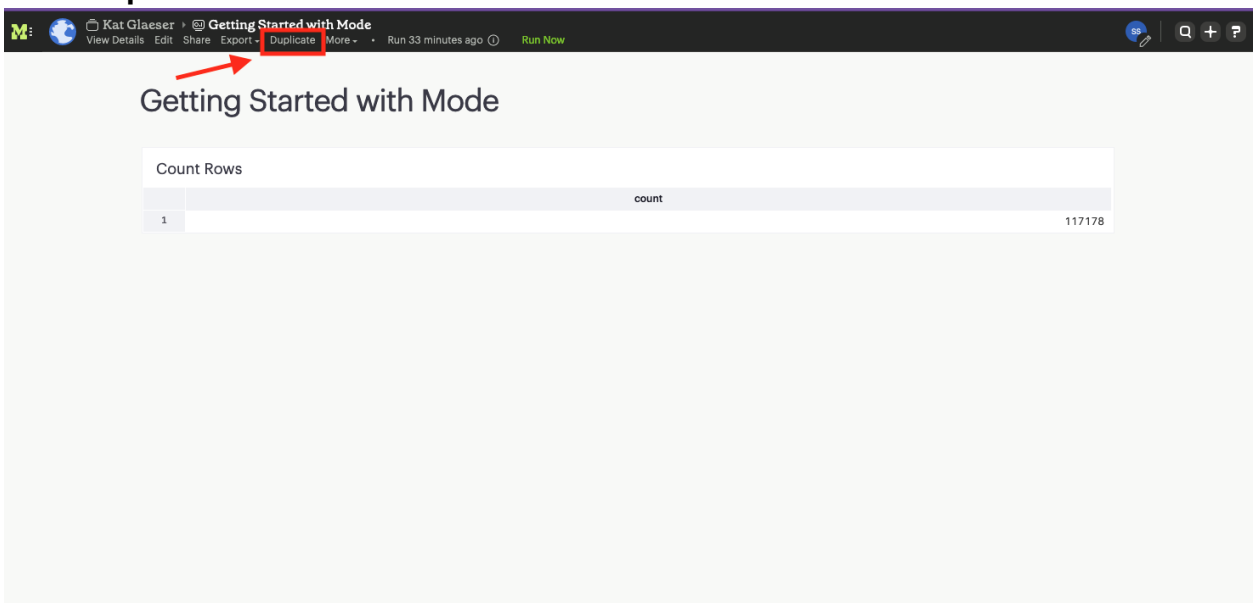


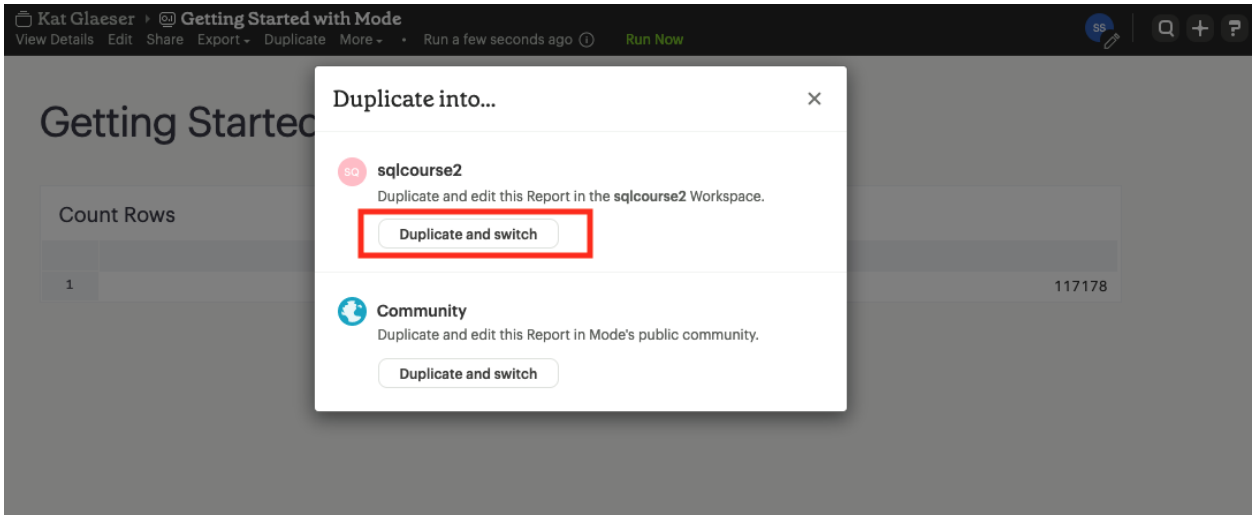
You should now be at this page:

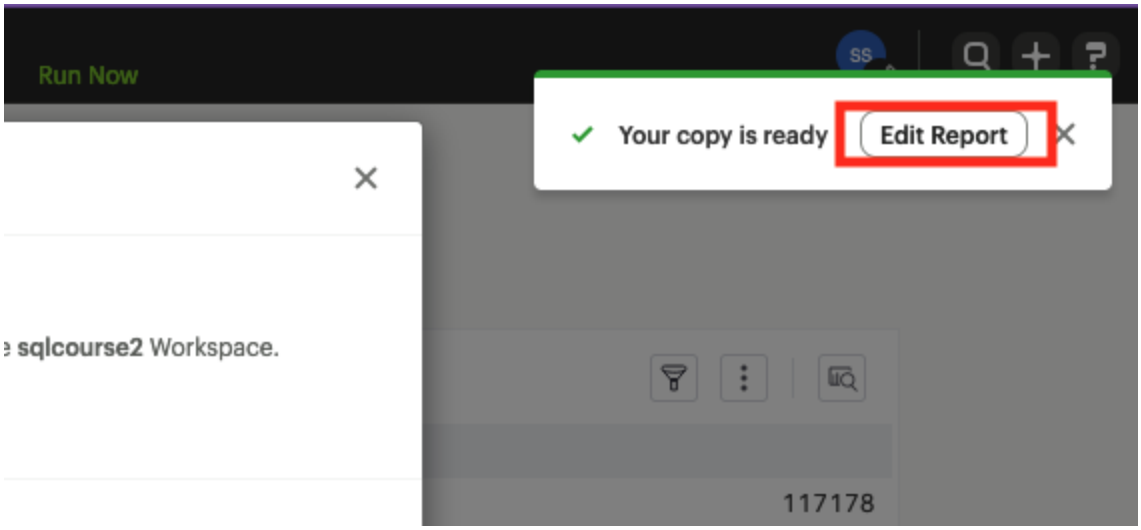


2. **After logging in or from the page above, click here:**
   https://modeanalytics.com/dsv1069/reports/0401f3197d05

3. **It should look like this. Click the "Duplicate" button to make a copy of the report.**

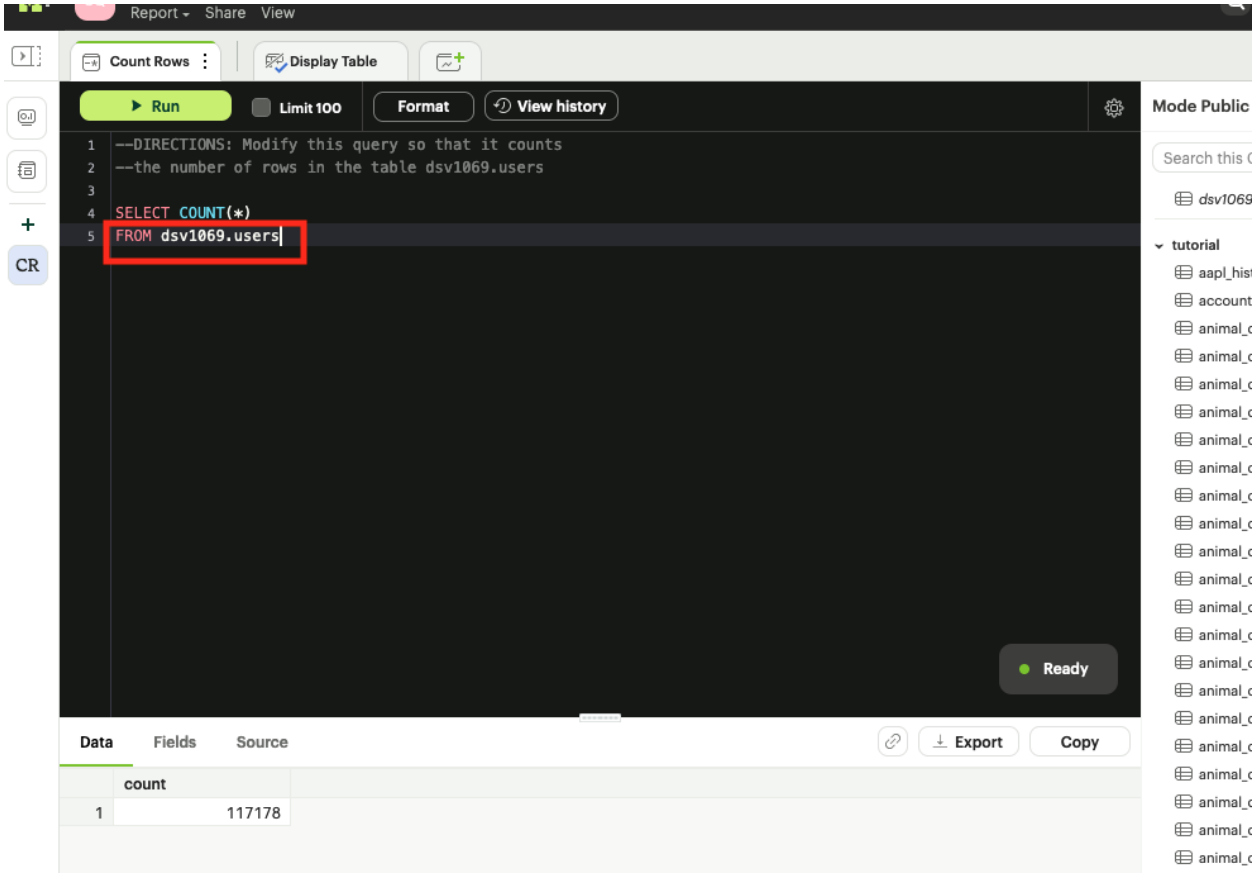




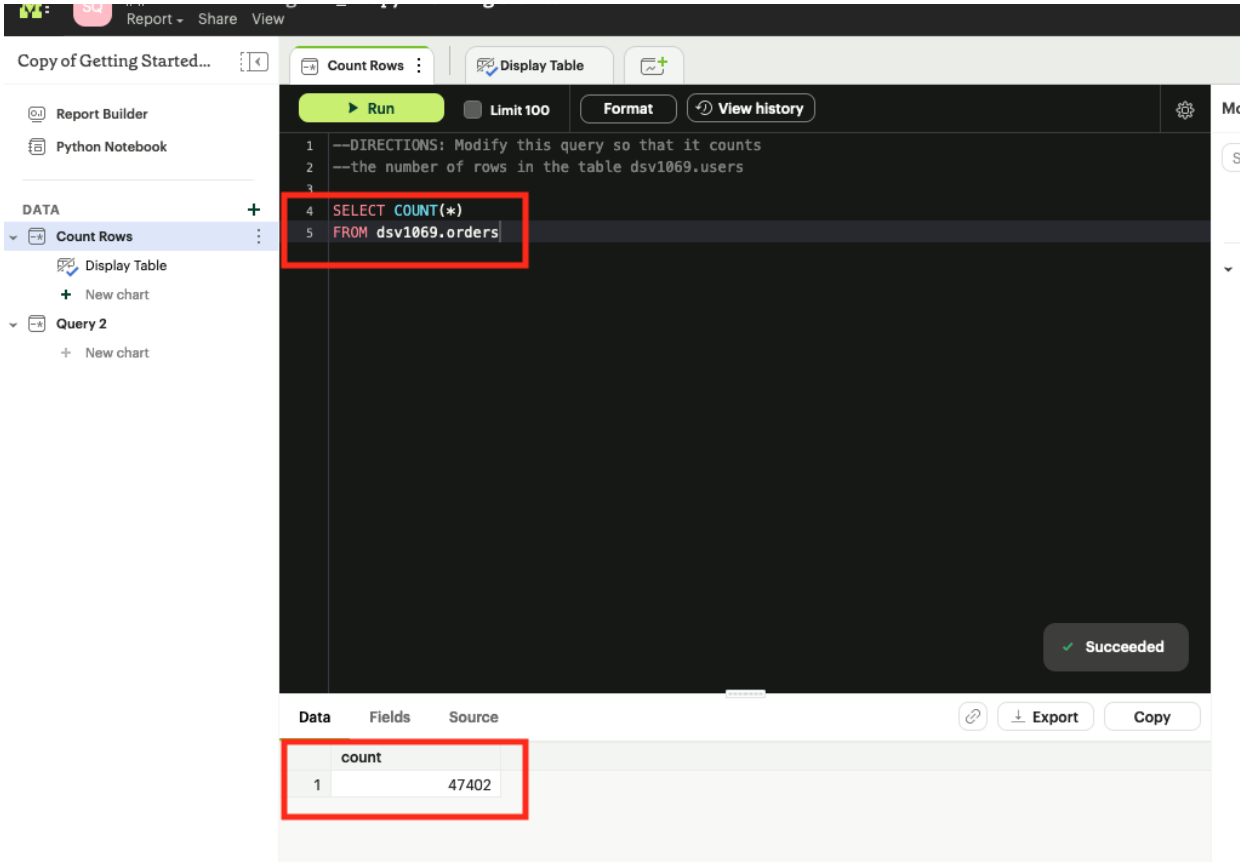


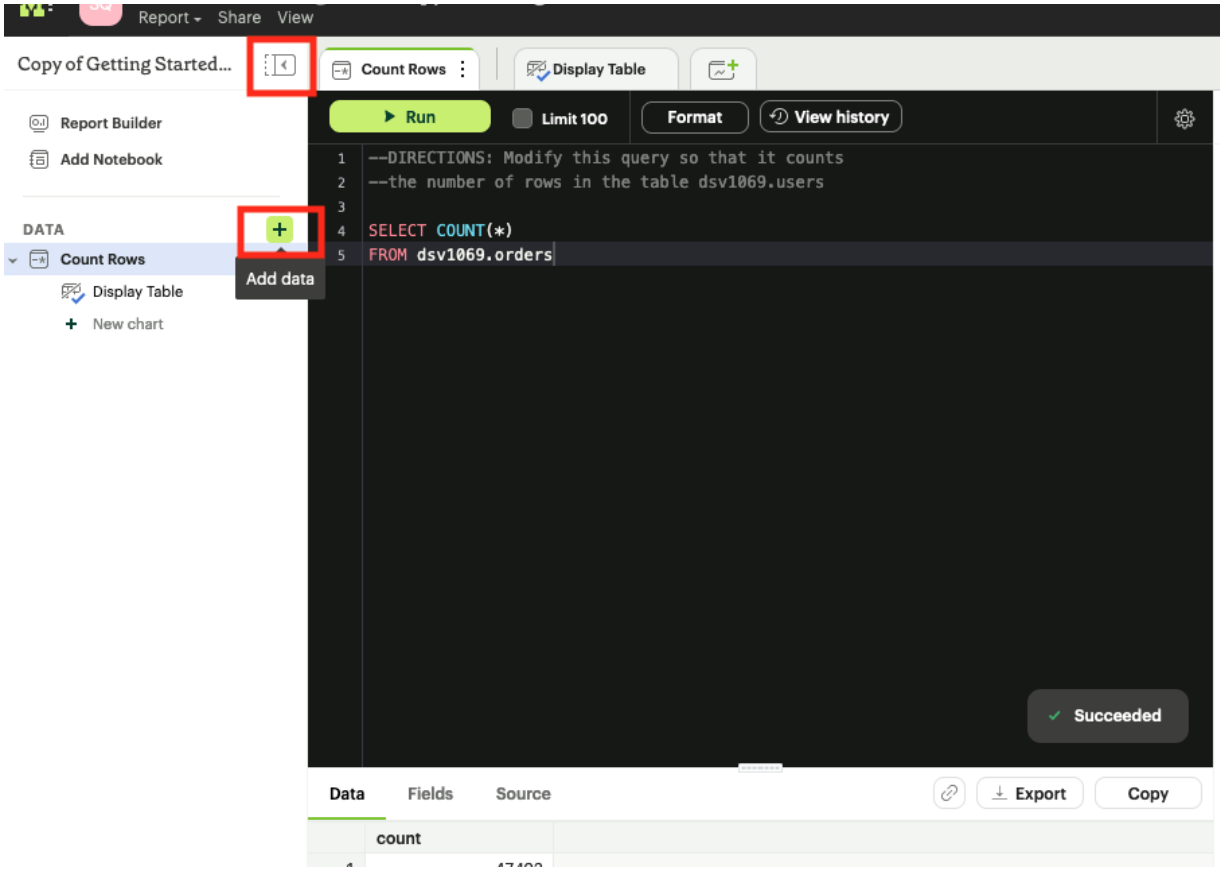
Here are some things you should feel comfortable doing in Mode:

Once at this page, you change the FROM dsv1069.orders and hit "Run"



After hitting the Run button, you'll now see the new count number:



The arrow button is used to open or collapse the side panel.


And the + tab is used to create a new query.
